Complete Care Support @ Home Fees Schedule	20

WHAT IS A “CLASSIFICATION”?

- A **classification** is a way to group or sort older people who get Support @ Home services.
- It is based on your needs, which are checked during an aged care assessment.
- Your classification decides:
 - What kind of help you get (like cleaning, personal care, or special equipment)
 - How much money (budget) you get for your care every 3 months

TYPES OF CLASSIFICATIONS

Ongoing classifications: There are 8 levels. The higher your needs, the higher your classification and budget. Your Support at Home level is decided when you have your aged care assessment. This level tells you what help you can get and how much money you get every 3 months. If you don't use all your money, you can save up to \$1,000 or 10% (whichever is more) for next time. Special equipment and home changes are given a separate budget that lasts longer as approved.

CLASSIFICATION	QUARTERLY BUDGET*	ANNUAL AMOUNT*
1	\$2,683.01	\$10,732.04
2	\$4,008.91	\$16,035.64
3	\$5,491.67	\$21,966.70
4	\$7,424.07	\$29,696.28
5	\$9,924.40	\$39,697.61
6	\$12,028.44	\$48,113.74
7	\$14,536.88	\$58,147.50
8	\$19,526.51	\$78,106.04

Short-term classifications: There are 3 types for special situations:

1. Help with recovery (Restorative Care)
2. Help at the end of life (End-of-Life Pathway)
3. Help with equipment or home changes (Assistive Technology and Home Modifications)

1. THE RESTORATIVE CARE PATHWAY

The Restorative Care Pathway will help people regain independence with daily tasks. It can reduce the need for more services and support you in doing the activities you enjoy.

Under the Restorative Care Pathway, you may:

- have access to up to 16 weeks of restorative care
- receive an extra budget of about \$6,000 (or up to \$12,000 if required) for multidisciplinary allied health services
- access restorative care separately, or in addition to ongoing Support at Home services
- have access to assistive technology and home modifications through the Assistive Technology and Home Modifications (AT-HM) scheme if needed.

The table below outlines the approximate funding amounts for restorative care.

**Funding amounts are indicative and are subject to indexation revisions.*

SERVICE	BUDGET AMOUNT
Restorative Care Pathway	\$6,000 (up to 16 weeks).

2. THE END-OF-LIFE PATHWAY

The End-of-Life Pathway will support you to remain at home in your last 3 months of life. You can be referred for a high priority Support Plan Review to access the End-of-Life Pathway, even if you're not already a Support at Home participant.

Under the End-of-Life Pathway, you will:

- have urgent access to a higher level of funding for in-home aged care services if you have been diagnosed with 3 months or less to live
- have access to assistive technology through the Assistive Technology and Home Modifications (AT-HM) scheme if needed
- receive funding of up to \$25,000 over 12 weeks, with 16 weeks to use the funds to provide more flexibility. If you need services beyond 12 weeks, you can request an assessment so you can continue to receive Support at Home services under an ongoing classification. This pathway is to complement other in-home palliative care services provided through state and territory governments.

The table below outlines the approximate funding amounts for end-of-life care.

SERVICE	BUDGET AMOUNT
End-of-Life Pathway	\$25,000 (12-week episode, may be extended up to 16 weeks).

3. THE AT-HM SCHEME

The Assistive Technology and Home Modifications (AT-HM) scheme will give you access to products, *equipment (such as a wheelchair) and home modifications (such as a shower rail) to meet your assessed needs. If you are approved for the AT-HM scheme after your aged care assessment, you can access up to \$15,000 for home modifications and \$15,000 (or more with evidence) for assistive technology. You may be eligible to receive assistive technology funding, home modifications funding, or both. The funding tiers for assistive technology and home modifications, based on your assessed need.

The table below outlines the funding amounts for the funding tiers for assistive technology or home modifications.

FUNDING TIER	FUNDING ALLOCATION CAP	TIME ALLOCATED TO EXPEND FUNDING
Low	\$500	
Medium	\$2000	
High	\$15,000**	

* Purchase no longer comes out of your budget. This means you don't need to save up for large equipment items.

** Participants who have assistive technology costs above \$15,000 can access additional funding with evidence, such as a valid prescription.

You are eligible to use this funding over 12 months. If you have specific needs, such as for an assistance dog, you may be eligible for more funding over a longer time. The AT-HM list has the products, equipment and home modifications that Support at Home participants can access through the AT-HM scheme.

S@H EXPENDITURE INCLUSION & EXCLUSION LIST

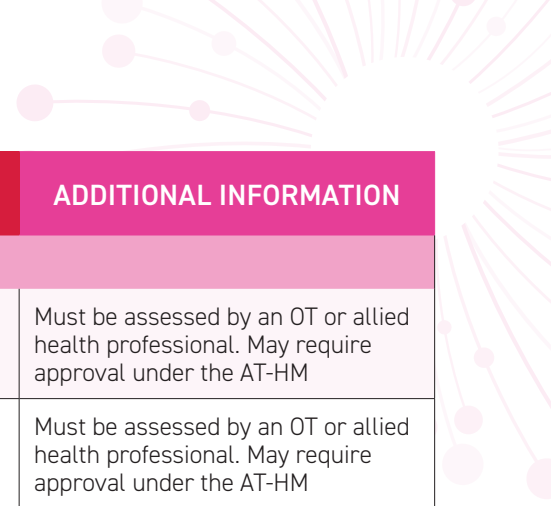

The primary purpose of Support At Home is to provide care and services to meet the assessed care needs identified and outlined in your care plan. We understand that care needs change and a regular review of those care needs by the Care Advisory team, along with clinical and allied health professional assessments, will ensure services are delivered to support those changing care needs.

This expenditure guide has been designed to assist you to make choices about how best to use your S@H funds within the Government guidelines and is to be used in conjunction with the Decision-Making Tool.

INCLUDED	Approved as long as it relates to a care need outlined in your care plan
PROVISIONAL	The decision-making tool must be completed with supporting documentation from a health professional or specialist for consideration
EXCLUDED	Specifically excluded and S@H funds cannot be used to purchase these items

Residential respite fees			✘	Items already subsidised by the Government are an excluded item
Private Aged Care Placement Services			✘	Payment for services for a client who is moving into an aged care facility are excluded items

CONTRIBUTIONS

Contributions are an essential part of the Support at Home program, to ensure a fairer system that can provide better and more tailored services in an affordable way. You will only pay contributions for services you receive. The government will fully fund clinical care, such as nursing and physiotherapy. You will not be required to contribute for these services. Contribution rates will vary by the type of service and your income and assets. An income and asset assessment, like the age pension means test, will be used to determine your contribution rate. Those on the Age Pension and Commonwealth Seniors Health Card holders will pay lower contributions than self-funded retirees. Use the Support at Home fee estimator to better understand what your contributions may be.

The contribution rate will be based on the type of Support at Home service received:

- Clinical care costs will be fully funded under the S@H program.

However, contributions may apply for services that support your independence, such as personal care. These services can play an important role in keeping people out of hospital and residential aged care. Everyday living services, such as cleaning and gardening, will attract the highest contribution rates.

Standard participant contribution rates from 1 November 2025

AGE PENSION STATUS	CLINICAL CARE	INDEPENDENCE	EVERYDAY LIVING
Full pensioner	0%	5%	17.5%
Part pensioner and eligible for a Commonwealth Seniors Health Card	0%	Between 5% and 50% depending on income and assets	Between 17.5% and 80% depending on income and assets
Self-funded retiree	0%	50%	80%

FINANCIAL POSITION OF YOUR PROVIDER

Under the new Support at Home program, you have the right to request information about the financial position of your provider. This is part of a commitment to transparency and accountability in service delivery. If you would like to access this information, please speak with your care Coordinator or contact our office. We will provide the relevant details in line with program guidelines.

PAYMENT ARRANGEMENT FOR CONTRIBUTION

A monthly invoice reflecting your portion of contribution for the services provided will be sent to you.

We prefer for clients to set up a Direct Debit. If you wish to make an alternative option, please discuss with the Complete Care Coordinator @FRC.

FINANCIAL HARDSHIP

If you are genuinely unable to afford your Support At Home services contribution for reasons beyond your control, you may be eligible for financial hardship assistance through Services Australia to help you pay your client contribution.

To apply for this assistance for your specific circumstances, please contact the Finley Regional Care Complete Care office to discuss further.

WHAT HAPPENS TO YOUR EXTRA HOME CARE MONEY UNDER SUPPORT AT HOME

If you moved from a Home Care Package to the Support at Home program and had extra money left, you still get to use that money.

How it works:

- Your care provider will ask Services Australia to pay for your care using your extra money, if needed.
- This happens only when your regular care money runs out.

THE ORDER SERVICES AUSTRALIA USES YOUR MONEY:

For ongoing care (like restorative or end-of-life care):

1. First, your regular care budget is used.
2. Then, any extra money your provider is holding for you.
3. Lastly, any extra money in your government account.

For equipment or home changes (like walkers or ramps):

1. First, your provider uses any extra money they're holding for you.
2. Then, money in your government account.
3. Only after that, special funding for equipment or home changes is used.

Important: When Services Australia uses your extra money, they don't pay your provider a subsidy. They just use your existing funds.

Once your extra money is all used up, Services Australia will stop using it.

'NO WORSE OFF PRINCIPLE' FOR OLDER PEOPLE IN THE AGED CARE SYSTEM

If you were already receiving a Home Care Package, on the National Priority System or assessed as eligible for a package on or before 12 September 2024, you will be no worse off under Support at Home. You will make the same or lower contributions as you were liable for under the Home Care Packages Program.

'NO WORSE OFF PRINCIPLE' CONTRIBUTION RATES

AGE PENSION STATUS	CLINICAL CARE	INDEPENDENCE	EVERYDAY LIVING
Full pensioner	0%	5%	17.5%
Part pensioner and eligible for a Commonwealth Seniors Health Card	0%	Between 0% and 25% depending on income and assets	Between 0% and 25% depending on income and assets
Self-funded retiree	0%	25%	25%

LIFETIME CAP

There is a lifetime cap on contributions. Once you have reached the cap you will not be charged any more for the services you receive. The cap will be indexed annually. If you were assessed as not having to pay fees for your Home Care Package as of 12 September 2024, your Home Care Package lifetime cap will also remain the same.

MONTHLY STATEMENT

Each month, you will receive a care statement that outlines the services you received, the costs of those services, and any fees or contributions you've made. This statement helps you understand how your funding is being used and ensures transparency in your care arrangements. If you have questions about your statement or notice anything unexpected, please contact us for clarification.

GRANDFATHERED CONTRIBUTIONS – WHAT YOU NEED TO KNOW

If you were receiving a Home Care Package on or before 12 September 2024, you are considered a grandfathered care recipient. This means:

- You will not pay more than you did under the old Home Care Package rules.
- If you were not required to pay an income-tested care fee before, you will continue to pay nothing under Support at Home.
- If you did pay an income-tested care fee before, your new contribution will be the same or lower.
- Even if your care needs change and you are reassessed, your contribution will not increase.
- There is a lifetime cap on how much you can pay. Once you reach it, you won't pay any more contributions.

Example:

John is a full pensioner and was receiving a Level 3 Home Care Package. He paid no fees before, and he will continue to pay nothing under Support at Home—even if his care needs increase.

SUPPORT AT HOME - CARE MANAGEMENT

Under the Support at Home program, care management will support you to get the best outcomes from your aged care services. This means working with a care partner, a staff member of your service provider, to address your needs.

WHAT IS CARE MANAGEMENT?

Your Support at Home provider will provide care management activities, including:

Services Description Care planning

- Working with you to identify and assess your needs, goals, preferences and existing supports
- Developing and reviewing your care plan with you
- Reviewing your service agreement

Service coordination

- Communication and coordination with workers involved in the delivery of your services, and with you and your family or informal carers (if you consent)
- Budget management and oversight
- Supporting you if you move to a different kind of care, or from hospital to home

Monitoring, review and evaluation

- Engaging in ongoing care discussions
- Case conferencing
- Monitoring and responding to your changing needs and any emerging risks
- Evaluating goals, service quality and outcomes

Support and education

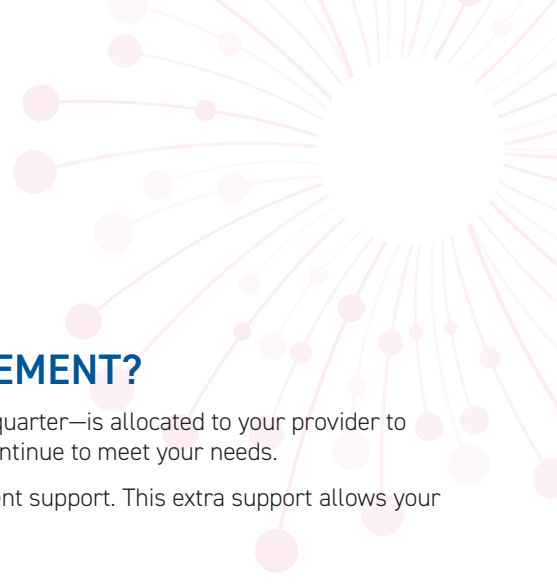

- Supporting you to make informed decisions
- Supporting and integrating reablement approaches
- Providing advice, information and resources
- Health promotion and education
- System navigation and linkage
- Problem-solving issues and risks
- Ensuring your views, rights and concerns are heard and escalated
- Assisting you with providing complaints and feedback.

HOW WILL CARE PLANNING WORK?

A care partner will work with you to identify your aged care needs, goals, preferences and existing supports. This will be documented in a care plan, which will be reviewed annually, and more frequently if required. The care plan is guided by the support plan from your aged care assessment.

HOW WILL I RECEIVE CARE MANAGEMENT?

Your care partner will be a staff member allocated to you by your provider. Your care partner will help you understand what services you can use based on your aged care assessment. They will work out with you how your provider will deliver your services.

HOW MUCH OF MY BUDGET IS FOR CARE MANAGEMENT?

As part of your ongoing Support at Home services, a portion of your budget—10% each quarter—is allocated to your provider to support care management. This helps ensure your services are well coordinated and continue to meet your needs.

If you have diverse or complex needs, you may be eligible for additional care management support. This extra support allows your provider to offer more intensive assistance tailored to your circumstances.

You may be eligible for this additional support if you are:

- Referred by the Care Finder Program, and/or
- An older Aboriginal and Torres Strait Islander person,
- Homeless or at risk of homelessness,
- A care leaver,
- A veteran who is eligible for the Veterans' Supplement for aged care.

If you think you may qualify, please speak with your care planner. We're here to help ensure you receive the right level of support.

COMPLETE CARE SUPPORT @ HOME FEES SCHEDULE

Effective from 1st November 2025

SERVICE TYPE	COST					
Care Management Fees	\$120 per hour (Please check previous pages for what is a care management fee and how it is charged.)
